## RANGER PROGRAM

### ACTIVITY 6

#### Imagine yourself living during the era of the Great Migration!

Imagine yourself living during the era of the Great Migration! Your parents have just told you that you have 10-minutes to pack the items that are important to you, that you will need to migrate to the North to the MotorCities Region. Remember, this is the early to mid 1900's, so cell phones, computers, and video games don't exist yet! What items would you pack that could fit into one backpack? What types of items would you pack to entertain yourself on the long trip? What items would you need to exist on your new journey... clothes, toothbrush, soap, snacks, books? What are you thinking as you pack your necessities? Will you miss your friends, your home, or your community? What types of things are you looking forward to on your new journey, what sights, sounds, smells? Are you going to write a goodbye letter to your friends? What will you write in your letter?
